

190TMHD-TEC-DF

190TMHD-TEC-DF

Product Description

The MASTER TEC's enclosed flame gives the safety and efficiency of direct-fired technology – all while keeping the flame separate from your workspace and away from construction debris and flammable objects.

Features

The enclosed flame design makes the workspace safer and allows you duct the heat wherever you need it with optional ducting.

Dual Fuel ability lets you easily switch from natural gas (NG) to propane (LP), giving you more flexibility in the rental market or jobsite

With an amazing 99% fuel efficiency, these heaters use almost all the fuel for heat

Optional Remote thermostat so you can locate the heater away from where the heat needs to go

Super quiet operation – less than 70 decibels! That's quieter than standard gas fired heaters!

Don't need heat all the time? Run the MASTER TEC Heater like a fan for air circulation in your workspace

Certified to top safety standards (ANSI and CSA) and ready for well-ventilated indoor and outdoor use, these heaters deliver peace of mind and high performance

1-year limited warranty
